[Funding alert] Workflow automation app Delightree raises \$3M in seed round

By Vishal Krishna | 1st Aug 2020

Delightree was founded by **Madhulika Mukherjee** and **Tushar Mishra** in 2019. The duo earlier founded **CEM software company Survaider** where they worked with over 3,000 franchise stores. That experience of starting up led them to found Delightree.

TNINE INFOTECH

Anurag Singh (2011-15 Batch) – Started TNine Infotech – Make content discovery using Machine Learning and Natural Language Processing

About

Who we are

We are the new age mobile app studio based out of India, who believe technology can be a flag bearer to ease life and improve its quality.

What we do

We use Machine learning and Natural Language Processing to make content discovery and consumption meaningful for the mobile generation

Story behind name

The name Tnine comes from room no 9, third floor of Cluster Innovation Centre, Delhi University, where the idea was conceived for the first time

Shivek Khurana (2012 – 16 Batch) –
Co-Founder of Meta Block that
helps build immersive NFT Apps
and Founder of Krim Labs

Krim Labs was founded by Shivek Khurana in the year 2017. Initially a consultancy that spun-off from a failed startup, Krim has evolved into publication about building software and software companies. We publish our tutorials, opinions and articles about old and new tech and it's moral implications. **It's our way of giving back to the community.**

Over 1200 people follow Krim Labs and its author Shivek Khurana on various social platforms and email lists. Our research and publications have reached over 1 million readers over the past 4 years. We care the most about:

Clojure

Blockchain

Pankaj Baranwal (2015-19 Batch), Hitesh Gautam (2016 – 20 batch), Desh Deepak Dwedi – Started Precisely, The Opportunity Hub

STARTUP

This edtech startup went from listing internships to helping tuition teachers, coaching centres go online
