The Annual Mathematics Education Fest by [MATRIX](#)

On Day-1 the participant students included: Kulachi Hansraj Model School, Vikas Bharati Public School, Maharaja Agarsain Public School Ashok Vihar, Prabhu Dayal Public School, S D Public School, Patel Nagar. While on Day-2, several college students from University of Delhi participated enthusiastically.

Every game was designed with a mathematical twist, with the purpose to make mathematics a fun and joyful learning experience. An online speaker session by the founder of an alternative pedagogy school, Schoolasium, Mohammad Sajid Hussain, was also organised.

Over 250 students participated in the event and enjoyed it. We are grateful to all our supporters, sponsors and CIC for the help and encouragement.

On 9-10 February, 2023, the students of M.Sc. mathematics education organized the annual mathematics education 2023 edition for the school and college students.

The idea behind the event was to give learners an opportunity to learn, explore and enjoy mathematics with the helps of games, activities and other teaching - learning materials.

The learners engaged themselves in the various activities and games which were basically curated for the mathematics concepts of grades 6th to 9th. The energy among the learners to explore the resources and engage in every activity was remarkable.
