

Annual Alumni Meet 2026

CIC celebrated its 2026 edition of Annual Alumni Meet on 3rd January 2026 (the first Saturday of 2026). The event was jointly organised by the Alumni Association of CIC and DeepLogic AI. DeepLogic AI is a startup founded by CIC's proud alumni, Utkarsh Mittal and Arjun Sharma (B.Tech. IT and Mathematical Innovation, Batch 2015 -19), and partnered by Chappa Sri Vinay (Batch 2018 - 22).

This time the event was organised at a relaxed farmhouse setting at Saroj Jain Vatika, Gurgaon. The beautiful venue with greenery all around, soulful treats, and a nice warm sunny winter day brought together CIC graduates to celebrate their professional journeys and an opportunity to reconnect with peers. The Director of CIC Prof. Shobha Bagai, Joint Director Prof. Jyoti Sharma, and Prof. Swati Arora graced the event with their presence.

With the constant sound of laughter, chit chat, and camera clicks, the CIC family celebrated togetherness with a cake cutting session. It was followed by heartfelt messages expressed and shared by alumni, teachers, and the association chairs. The atmosphere was joyful and fun,

full of spontaneous dance performances by both alumni and faculty, followed by a collaborative group photo session.

The highlight of the day were the fun games and dance, through which the alumni spanning courses and graduating years laughed and smiled together till their cheeks hurt. This way each of them got to know a lot about others both personally and professionally. It did not feel for once that some of them were meeting for the first time. It became a much needed get together for all of us.
